Long term overviews for the HIAS scheme of learning for mathematics for classes taught as single year groups

Points to consider when using this resource

- This long-term plan identifies the key focus in each unit of work in the HIAS scheme of learning for mathematics. For more detail and a break-down of these objectives please refer to the relevant medium and unit plans.
- Medium term plans identify the objectives to be addressed in each unit.
- Unit plans identify a learning journey, required prior knowledge, misconceptions, key vocabulary, and suggested tasks. Appropriate models, images, concrete resources, and visual representations are an implicit element in all units
- Plans are based on a 14-week term and will need to be adjusted on a term-by-term basis
